ELEMENT 3. PARENT AND FAMILY ENGAGEMENT:

Develop and distribute Parent and Family Engagement Policy

Our school provides high quality curriculum and instruction in supportive and effective classroom environments to enable students to meet the challenging State academic standards. We support our students and work hard to provide a welcoming, safe school environment.

We will work with students and their families to support students' success in meeting or exceeding State Standards in reading and math.

Some of our key ways to do this will be

- Develop a weekly goals folder with students and send home materials to help parents support the learning goals.
- Use a “word wall” and storytelling to incorporate new words. Send new words to families each week with information about how to build a home word wall and develop their own stories.
- Design a fun family math and literacy night to share school wide strategies with families about how to help students connect personal experiences to the story.
- Involve students in hands-on estimation and measurement activities in class.
- Connect students with after-school activities that support their learning.

At Home Ector parents are encouraged to develop these ideas about how families can support students' success in reading and math:

- Review student success in reading and math learning goals, and use the teacher's materials to support my child's learning at home.
- Post new words on our "word wall" and remember to use them in conversations and stories. Add our own new words.
- Read with my child every day and talk about how the story connects with things that he or she has experienced. Attend the family fun literacy night to practice new ways to support my child as a reader.
- Have contests to see who has the best guess for measurements or numbers of things at home, like how many beans in a jar, or the length of a table.
